EXPERIENCE

Flex Artificial Intelligence Jan 2024 – Present
Senior Android Engineer Ottawa, ON

- Lead engineer building Flex Fitness for Android, a workout companion & social media app.
- I'm responsible for app architecture, agile planning and estimation, team management, and dev ops.
- Our app is built with Kotlin, Jetpack Compose, and Firebase.
- Enforce usage of modern technologies like Flow, Coroutines, MVVM, and Clean Architecture.

Konrad Group May 2023 – Jan 2024
Senior Software Developer Toronto, ON

- Pod lead & developer working on an American financial services app with 14 million users.
 - Front-End Kotlin developer, contributing to Android platform.
 - Fixed critical bugs in the registration flow, improving sign-up conversion rate by 5%.
- Played an active role in candidate evaluation by conducting technical interviews.

Konrad Group Sep 2018 – May 2023
Software Developer Toronto, ON

- Kotlin and Java developer and consultant for industry leading Android apps, including:
 - A “click and collect” grocery pickup app with over 1 million users in Canada.
 - An at home streaming platform for a popular American fitness brand.
